DETAILED ACTION

Summary

On June 30, 2004, an Office Action was mailed to the Applicant rejecting claims 1-12. On November 1, 2004, the Applicant responded by amending claims 1 and 5.

Claim Objections

The objection has been withdrawn.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claims 1-12 are rejected under 35 U.S.C. 102(e) as being anticipated by Morrill (5,991,749), as set forth in the previous Office Action.

Response to Arguments

Applicant's arguments filed November 1, 2004 have been fully considered but they are not persuasive. The Applicant argues that Morrill does not disclose the establishment of interfaces to cashless payment for the use of Internet access networks nor does Morrill disclose the use of cashless payment in Internet access networks for the registration of the Internet users with any freely selectable Internet operation, and the resulting possibility of flexibility using corresponding services through the Internet communication networks. In response, Morrill discloses that the Internet may be used to may cashless payment transactions, as pointed out in the previous Office Action (col.10, lines 60-65). The user may also use cashless payment in Internet access networks for the registration of the Internet users with any freely selectable Internet operation (col.3, line 65 to col.6, line 12). The user may register with any number of companies/vendors to allow for cashless payment using a wireless device and the Internet. Therefore, the Examiner is interpreting Morrill as reading onto the invention substantially as claimed.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the

Art Unit: 3624

shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
